

Special components

Our commitment to quality is your added value

Special components according to your specifications are a major part of the services we offer. We employ a highly qualified team to satisfy the strict requirements of our customers. Our state-of-the-art machinery includes high-precision turning and grinding machines. Our effective management system is a guarantee for superior quality.

D = Dimension [mm] / M = Material

Matrix bolt D: $\varnothing 10 \times 87$ / M: 1.3505

Turned milled contour, hardened and grinded, length-tolerance 0.02.

Electrode D: M3 x 25 / M: Hastelloy C-22

Completely turned of Hastelloy C-22.

Electrode head D: $\varnothing 5 \times 7$ / M: Hastelloy C-276

Turned of Hastelloy C-276, Internal-thread milled M2.

Center bushing D: $\varnothing 32.5 \times 32.3$ / M: 1.3505

Hardened to 46 - 48 HRC, grinded.

Bushing D: $\varnothing 32 \times 60$ / M: 1.2083

Turned, hardened to 50 - 52 HRC, outside grinded +/-0.005.
